**Friends from page 17** will host an organizational meeting for the Friends group on Tuesday, Dec. 2 at 7 p.m. in the library's activity room. Attendees will consider a proposed constitution and bylaws, and vote on a prospective slate of officers.

According to Library Board President Beverly Jones-Arthur, "A Friends group will play an invaluable role in promoting the Board's objectives through advocacy, volunteering, and finding ways to support special library projects." Many libraries have Friends groups because they allow more people to be a part of the library community.

"There's a natural synergy to it," said Anderson. "Citizens feel more a part of the library which, in turn, makes the library more part of the community."

Anyone interested in being a part of the steering committee directing this start-up should contact Maureen Anderson at 371-6714.

## Rash of thefts sparks investigation

**By Lance Winkler**

A rash of six separate thefts from unlocked cars and garages has occurred over the past three weeks in the northeastern section of Oakwood. According to Oakwood Safety Department records, the thefts started with a number of items stolen from an unlocked detached garage on Hathaway Road on Oct. 28 and an unlocked motor vehicle parked on Oak Knoll Drive, also on that date.

On Nov. 6, another unlocked motor vehicle was rifled on Hathaway and two motor vehicles on Woodview - one locked and the other unlocked - were also robbed. On Nov. 8, an unsecured detached garage on Collingwood Drive was

also entered and a number of items taken.

One victim who locked her car and had it parked in her driveway had the rear window broken open and had her purse taken with cell phone, wallet with ID and money. She believed her purse was safe as it was hidden under a blanket.

"They (the robbers) were very polite. They just broke the smallest window to get in the car... I've lived in four houses in Oakwood over 25 years. I never felt unsafe. I'm moving next spring," she said.

According to the victim, the robber began using her cell phone to call various people almost immediately after absconding with it. One call was made on her cell phone that evening to a pizza delivery business at 1:15 a.m. giving a specific address for a pizza to be delivered in the Patterson Park area.

"From these phone calls that were made, we have potentially identified a suspect but the case remains under investigation," said Detective Alan Hill of the Oakwood Safety Department. Dayton Police are also involved in the investigation.

Residents are reminded to remove valuables from motor vehicles and to keep both garages secure and motor vehicles locked.

## 40 Developmental Assets<sup>®</sup>

A special program entitled the "40 Developmental Assets Program" has been introduced into the Oakwood Schools. A "Developmental Asset" is a positive experience, relationship, opportunity or personal quality that young people need in order to grow up healthy, caring and responsible. The more "Assets" a child experiences, the more successful he will be as a member of his family, school and community.

*The Oakwood Register* is pleased to be part of the program by encouraging citizens to do what they can to be an Asset Builder. Each week Harman and Smith Schools post an Asset of the Week in their schools. *The Oakwood Register* will publish this Asset so that community members may, by words, actions or encouragement, reinforce this Asset in their contacts with children.

For the week of:
